Aim of the Conference

17th Conference of Young Researchers Section of Polish Society of Food Technologists – 1st International Conference – „Food Diversity” is an annual event addressed to young Polish and foreign researchers – PhD students and experienced researchers. The aim of the Conference is to present research results

and share knowledge associated with food technology among young and experienced researchers from Poland or other countries. The subject of this – year Conference is a continuation of last – year symposium “Evolution of food”.

Topics

1. New technologies in food industry.
2. Modern trends in food production, among others:
 - food safety
 - pro – health food
 - bioactive food
 - ecological food
 - designed food
 - traditional food
 - antinutritious ingredients
3. Modern methods of food analysis
4. Functional food as a response to a modern consumer’s needs.

Languages Polish, English

Presentations

A participant can prepare 1 oral presentation and/or 1 poster. The presentation should not exceed 15 min.

Preparation of abstracts See attachment 2.

Preparation of posters

Poster dimensions should be 70 (width) ×100 (height) cm, in English.

Publication

- Privileged communications, presented during session, in an original research paper form after acceptance can be published in the journal “Food. Science. Technology. Quality.”.
- Original research paper should be prepared according to the requirements of the journal “Food. Science. Technology. Quality.”.
- The rest original research papers after acceptance can be published in a monograph.
- All abstracts will be published in a book of abstracts.

Timetable

15.02.2012 – registration (registration form – attachment 1) on e-mail: **m.rzepka@ur.krakow.pl**

**Desiderata to the Conference of Young Researchers Section of
Polish Society of Food Technologists' regulation**

1. Participants of the 17th Conference of Young Researchers Section should be PhD students, young researchers who are not independent researchers.
2. The Organizing Committee sets the chairmen of debates and they come from all institutions – universities, research center, etc.
3. Only young researchers – participants of the conference should be the authors of posters, announcements (there should be a piece of information, under whose direction the work was done, at the end of the poster or announcement).
4. There should be extra information if the work was prepared thanks to a supervisor's grant.
5. A supervisor or a research team should be co – author(s) of an announced conference publication – research papers are published in the same form like last years.
6. The presence of a participant next to a poster during the poster session is obligatory.
7. The Scientific Committee evaluates posters and oral presentations and confers distinctions in both category.
8. All young researchers – Conference's participants also evaluate posters and oral presentation; they confer distinctions by voting in both category too.

9. The Organizing Committee of the Conference of Young Researchers Section consist of representatives from the universities with doctoral studies.
